Excerpts:

SAINT JOHN, NEW BRUNSWICK — A 52-year-old cardiologist, hospital director and hockey coach is dead after spending much of 2021 belittling the non-vaxxed.

Dr. Sohrab Lutchmedial received his first mRNA injection on January 16, according to his Facebook page. It's unclear whether it was Pfizer or Moderna. It also doesn't matter. But those were [the only two](#) injections authorized [for use in Canada](#) at the time.

Covid 19 immunization at Horizon today was a slick operation, super efficient and the staff were really organized. So happy to do my part. I'm really looking forward to being able to visit my father again and not being worried when I do.

Dr. Lutchmedial did not post about his second injection anywhere across his three social media platforms. But he did speak of his disdain for the non-vaxxed, and disseminated dangerous disinformation supporting the [global depopulation agenda](#).

Dr. Lutchmedial tweeted on August 15 that more Americans would get the injections if they were called “antibody guns.”

He promoted mRNA injections for 12-year-olds and made the false, very dangerous claim that the shots are “undeniably safe.”

I think all of us would treat that unvaxxed patient with respect amd to the best of our abilities. But the people that convinced them not to get vaxxed? I want to punch those people in the face.

Whether you call it ironic, prophetic or something else, Dr. Lutchmedial said via Facebook on March 5, "99.999999% of all the decisions and actions we make during our lives means absolutely nothing when we die." The post was in response to the death of Walter Gretzky, father of NHL great Wayne Gretzky.

It's a true (if somewhat depressing) fact that 99.999999% of all the decisions and actions we make during our lives mean absolutely nothing when we die. The one exception is - of course - our children - who can still remake and change the world. So it's a sad day when Walter Gretzky passes away . He's that Canadian Everyman/parent who many of us identify with - as we all dream our dreams of our children surpassing us - living better lives - making a difference. He got to see it unfold in a historic fashion - but here's hoping all of us get to see in in our own lives - and that we appreciate it even if it isn't in some grand accomplishments but that just that our kids are better people than we were.

Canadian physician Dr. Andrew Moulden provided clear scientific evidence to prove that every dose of vaccine given to a child or an adult produces harm. The truth that he uncovered was rejected by the conventional medical system and the pharmaceutical industry. Nevertheless, his warning and his message to America remains as a solid legacy of the man who stood up against big pharma and their program to vaccinate every person on the Earth.

Dr. Moulden died unexpectedly in November of 2013 at age 49.

Because of the strong opposition from big pharma concerning Dr. Moulden's research, we became concerned that the name of this brilliant researcher and his life's work had nearly been deleted from the internet. His reputation was being disparaged, and his message of warning and hope was being distorted and buried without a tombstone. This book summarizes his teaching and is a must-read for everyone who wants to learn the "other-side" of the vaccine debate that the mainstream media routinely censors.

I wonder how many people he'll have wound up killing before it's all over in addition to himself? I hope he burns in hell for what he did.

I don't get these doctors who make sure they have a photo-op during the injection. They are so proud of themselves. I don't understand why it is so hard for them to believe that a shot that rolls out in less than a year could

take it. The rest were listening to one of the ear specialists who insisted they were safe. I had respect for this MD but he was by no means an infectious disease expert, but I guess he was a doctor and he told him.

"but because he is a doctor people listen to him."

That's the problem right there. Appeal to authority because our culture has bestowed on MDs priest status in the pharmakeia cult.

It has nothing to do with "science." I know more about real science than probably most of them, and my academic training was in liberal arts, back in the day when a liberal arts degree actually taught people how to think critically and use logic.

I know a lot more about health too, because real health is taught in the Bible, the wisdom of the ancients.

Nobody ever said God didn't have a sense of humour, not to mention being a God of justice. This is one less antichrist gone from this world. Good riddance.

Expect more stories like this in the near future.

I heard that the wicked wizard governor of California is being treated for guillian barre" (sure I spelled that wrong) or something after he took a booster shot. I get the feeling that people who continue to harbor and verbalize malice towards others, along with those who persist in wanting to force evil and sin on others will be stricken down according to their hateful and malicious thoughts.

When we cross over after we leave these bodies, we are shown the WHOLE picture of what was going on during our life. We see the TRUTH, and we see how fooled or how wrong we were about things. So this man now knows what a fool he made of himself at the end of his life — which led to his murder-by-needle.

I hear you DD. Some folks I'm sure believe that when you're dead you're done. Death is the continuation of eternal life. We each have to choose living a life that will determine where we will spend eternity.
